

# Reception Reporter

Date: 31.1.20

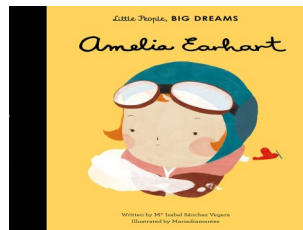

## Next Week:

We are going to be continuing our topic 'Trains, Planes and Automobiles!' We will be sharing a story all about the real life pilot Amelia Earhart who was the first female aviator to fly solo across the Atlantic Ocean. She was also a nurse and author. She was extremely brave, courageous and intelligent. She dreamed of flying aeroplanes when she was a child and she made her own dream come true! The children will imagine that they are going on their own exciting adventures in real and imaginary places of their choice, just like Amelia.

In Literacy, the children will also be creating their own story maps showing the sequence of events including a beginning, middle and end. They will use their developing phonic knowledge to write words and sentences and they will draw pictures of the characters and setting.

In maths we will be learning about shapes and patterns with a particular focus on 3D shapes. They will design and build their own amazing models using shapes of their choice. They will use their developing shape vocabulary to describe their work.

The children will also be creating hot air balloon models and pictures of aeroplanes using a range of tools, materials and media. The children will take photographs of their own work using an iPad.

## Creative Modelling

Please can you send into school some paper bowls for your child to use in their creative work next week. Thank you

## What can you do at home?

The children are really enjoying visiting our school library bus. Why not go for a visit to your local library. There are lots of books to look through and if you become a member, you will be able to borrow books to share at home.
