

Early Reading

Reading is one of the most powerful and important skills a child can learn and can often be a predictor for future academic success. At Manor Park we know the skills and steps required for a child to develop their early literacy skills and ask that parents read to, and with, their child **every day**.

This might be by reading a bedtime story, making up a story and telling it to their child, hearing their child read every day or looking through a picture book and discussing the illustrations.

Reading for Pleasure
is the
single most important
indicator
of a child's future success.

Early Reading

- We follow the engaging, progressive and fun phonics programme called Read Write Inc. All our children have access to reading books that match the sounds they are being taught in their phonic sessions. These books are shared at school and supported through books your child may bring home. We encourage as much reading as possible and share a wide range of diverse stories each day.
- The Early Years department is **BURSTING** with language and words - creating a **VOCABULARY RICH** environment that supports all the children in developing a love of reading.

Reading for Pleasure
is the
