

Year 3 Spring Term

Please select at least 3 homework tasks to complete over the term (alongside your English and maths homework set on Seesaw). Your work will be presented in your creative curriculum books - prizes and house points will be given for effort and originality.

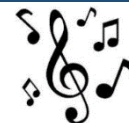

History

Who were the Mayans?
What was life like for them? What interesting facts can you find out about them? Research the Mayans and present your findings creatively - remember this is going in your creative curriculum book.

Music

There are lots of songs and nursery rhymes about food. Using the link below to help, write your own song about food and record yourself singing it. Use instruments if you have any!

<https://www.bbc.co.uk/teach/school-radio/music-ks1-music-food-fest-index/zhmyf4j>

D&T

Cook/bake different dishes from around the world. You could create your own recipe, cook it then share it with family

Create a new food product, design the packaging and create an advert for it

Art

Research Aztec art or patterns. Have a go at creating your own based on what you have found.

Use pointillism to draw a picture of your choice.

Computing

Create a PowerPoint presentation about some of the countries in Europe and the food you would eat there. Upload your work to Seesaw or print out a copy for your creative curriculum book.

Geography

Write a travel guide about a European country of your choice (this could be one you have visited). Include a map to show where this country is in the world and information about the weather and what tourists can do/eat there.

Look at where different food comes from when shopping in the supermarket - use a map/google Earth afterwards to see where all of the different countries are.

PSHE

Eating well is incredibly important to our overall health. Create a poster to answer the following:

- How can we stay healthy?
- What foods should we eat?
- What can we do to support our mental wellbeing?
